1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Harry Shubin on 4/13/06.

The application has been amended as follows:

Please amend claim 1 by inserting the attached sheet numbered "3" between the pages numbered "2" and "4" of the amended claims. This sheet represents a missing section of claim 1 as amended.

Please cancel claims 11 and 18, drawn to a non-elected invention.

Please amend claim 12 by deleting everything found on page 8 after "selected from the groups shown below" and inserting therefore the formulas shown on the attached paper. This amendment corrects the structures shown, as they do not contain the necessary unsaturated group. See page 10 of the specification.

2. The following is an examiner's statement of reasons for allowance: Applicants' amendment overcomes the prior art rejection by deleting the anticipated structures. The prior art fails to teach or suggest the remaining B groups found in claim 1.

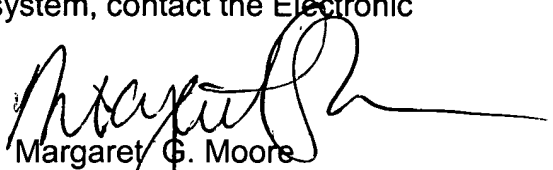

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Margaret G. Moore whose telephone number is 571-272-1090. The examiner can normally be reached on Monday to Wednesday and Friday, 10am to 4pm.
